SUMMARY

Skilled frontend developer adept in HTML, CSS, and JavaScript. Experienced in crafting intuitive user interfaces, optimizing performance, and collaborating effectively in cross-functional teams. Ready to drive digital innovation.

EXPERIENCE

Training and Change Management Expert

Prakhar Software Solutions Ltd

October 2023 – Present, Malviya Nagar, New Delhi

- I specialize in orchestrating organizational transformations by leveraging data-driven strategies and best practices.
- With a keen understanding of both the technical and human aspects of change, I excel in implementing seamless transitions, optimizing processes, and driving sustainable improvements across diverse business environments.

PROJECTS

Image Bazar

Html, Css, Javascript, Reactjs, Api · February 2024 – March 2024

- Our Image Bazaar Clone App offers a sleek and intuitive interface that simplifies the process of browsing and selecting images.
- From stunning photography and illustrations to vibrant graphics and textures, our vast library ensures that users can find the perfect image for any project, no matter the subject or style.
- With a responsive and adaptive layout, our ImageBazar Clone ensures a consistent and optimal viewing experience across devices, catering to users on desktops, tablets, and mobile phones.

Excelsheet Clone

Html, Css, Javascript · <https://nitishjaiswal2002.github.io/excelsheet/> · January 2024 – January 2024

- Designed with precision and attention to detail, our ExcelSheet clone delivers a seamless user experience, allowing you to create, edit, cut, copy, paste, alignment and analyze spreadsheets with ease.
- From basic calculations and formatting options to advanced data visualization tools, every aspect of the Excel experience is faithfully replicated to ensure maximum productivity and efficiency.
- Whether you're tracking financial data, managing inventory, or analyzing complex datasets, our ExcelSheet clone provides a reliable, feature-rich solution to meet your needs. With support for real-time collaboration and cloud storage integration, you can work smarter and more efficiently than ever before.

Youtube Clone

Html, Css, Javascript, Api · <https://nitishjaiswal2002.github.io/Youtubeclone1/> · December 2023 – December 2023

- I made meticulously replicated the core features of YouTube, ensuring a seamless user interface and robust functionality. From video streaming and playback to user authentication and commenting, every aspect of the YouTube experience has been faithfully recreated.
- Embrace the possibilities of this YouTube clone, meticulously engineered to empower creators, engage audiences, and foster community interaction.
- Whether you're exploring new content, sharing your own creations, or building a thriving online community, this platform provides a reliable, feature-rich solution that stands ready to elevate your digital presence.
